

I am a full stack web developer with good experience of 6 years.

I want to work on Upwork site

Upwork prefers European and American freelancers and they are well treated. (in price of their works)

So I need a European or American Upwork account to get more money.

If you help me, I will pay you monthly salary.

If I don't pay you, you can close the and Upwork account at any time, because you will have

all access and the profile image is yours. In this case, it will be a big damage to me.

So there is no need to worry about the payment.

If you are interested me, please contact me through Skype.

We can discuss more detail.

If you dislike mine, please don't be angry with me. Business is business!!! But I want you to think once more. believe me.

Thanks for your reading.
